

Why MAST Works

Cone of Experience

More comfortable

More skilled

Able to teach

Quicker

Sense and Meaning

Both pictures make **sense**. Which is more **meaningful** to you? Why?

Consume

sense

Verbalize

meaning

Chunk

meaning

Blind Draft

meaningful information retained

Connecting the Dots

How many triangles?

In Steps 5–8 (**checking steps**), we ask:

Have we added information?

Have we made assumptions?

Timing and Memory

Short-term memory

Working memory

Long-term memory

Step 1 Consume	Short-term memory	5–7 minutes
Steps 2 and 3, Verbalize and Chunk	Working memory	7–10 minutes
Step 4, Blind Draft		✓
Steps 5–8, Checking steps	Long-term memory	More time

Lateralization

Using both sides is best

- Logical thought
- Math and science ability
- Seeing details
- Planning and putting things in order
- Logic
- Vision on right side
- Control of actions on right side

- Emotional thought
- Ability to do creative work
- Seeing the “big picture” of how everything works together
- Adventurous impulses
- Imagination
- Vision on left side
- Control of actions on left side

Lateralization

MAST Steps use both sides

Left-side steps

Consume
Chunk
Self-edit
Peer-edit

Right-side steps

Verbalize
Blind draft

Key word check

Verse-by-verse check

Higher-level Thinking

How can you improve the pencil?

**Does a pencil work for every writing need?
Why or why not?**

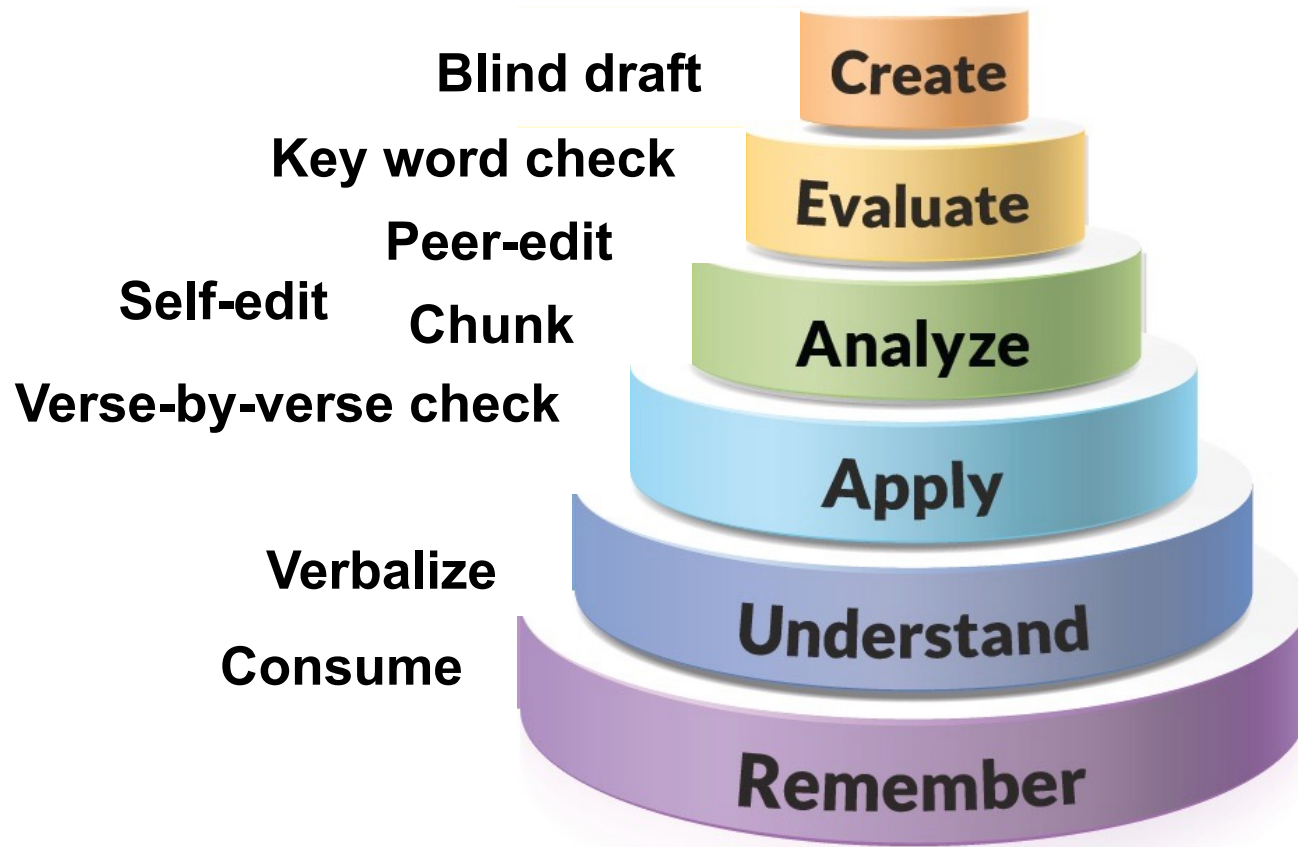

**Why would you use a pencil instead of
a pen?**

**What else could it be used
for?**

What does it do?

What is it?
